

## Service Side Results: (Frontend service)

The screenshot shows the 'frontend\_service' interface. At the top, there's a header with a back arrow, a green icon, the service name 'frontend\_service' with a link to 'frontend', a unique ID '57721aa340fd', and a port '8081:8081'. To the right, a 'STATUS' section indicates 'Running (11 minutes ago)' with control buttons. Below the header are tabs for 'Logs', 'Inspect', 'Terminal', 'Files', and 'Stats'. The 'Logs' tab is active, displaying a series of log entries. A red warning message at the top of the logs states: 'WARNING: This is a development server. Do not use it in a production deployment. Use a production WSGI server inst...'. The logs include startup messages, a restart command, and a list of HTTP requests and responses, such as 'POST /api/frontend\_service/trade/orders HTTP/1.1" 200 -' and 'GET /api/frontend\_service/trade/stocks/MenhirCo HTTP/1.1" 200 -'. A search bar and other utility icons are visible on the right side of the log area.

Synced database files for all order services-

```
src > app > order_service > transaction_log_1.csv
```

```
1 10,MenhirCo,buy,10.0
2 11,GameStart,buy,10.0
3 12,BankCo,buy,10.0
4 13,GameStart,sell,10.0
5 14,BoarCo,buy,10.0
6 15,CityCorp,buy,10.0
7 16,GameStart,buy,10.0
8
```

```
src > app > order_service >  transaction_log_2.csv
```

```
1 10,MenhirCo,buy,10.0  
2 11,GameStart,buy,10.0  
3 12,BankCo,buy,10.0  
4 13,GameStart,sell,10.0  
5 14,BoarCo,buy,10.0  
6 15,CityCorp,buy,10.0  
7 16,GameStart,buy,10.0  
8
```

```
src > app > order_service >  transaction_log_3.csv
```

```
1 10,MenhirCo,buy,10.0  
2 11,GameStart,buy,10.0  
3 12,BankCo,buy,10.0  
4 13,GameStart,sell,10.0  
5 14,BoarCo,buy,10.0  
6 15,CityCorp,buy,10.0  
7 16,GameStart,buy,10.0  
8
```
